**ms. lat. 9086 no. 1**

THE CANCELED MILITARY DRILLING BETWEEN the Philippines and the United States is kept in check, indicating that bilateral ties between the two countries had not broken apart. Manila gave an amnesty of 1,000 Marine recruits last month as a sign of a brighter future.

**RECOMMENDATION:** Although the authors' conclusions are based on a relatively small sample size, the results suggest that the use of a structured interview may be a useful tool for assessing the reliability of the information obtained from a witness. The authors' findings are consistent with the results of other studies that have found that structured interviews are more reliable than unstructured interviews.

upstreaming and increasing revenues, but also means an increased risk of investment in the sector. In fact, the effects of the new investment rules may be negative, as the increase in the average water resource by 2010 is estimated at 10%.

Consequently, the development of the national water resources management strategy is clearly the first step to be taken. It is essential to identify the components of the water resources management strategy.

According to the European Commission, the strategy should be based on the following:

As a result, the 11th Circuit said, investors are entitled to know more about the quality of the company's assets than is generally available to the public. The court said that the company's failure to disclose this information was a violation of the securities laws.

These authors also reported that the use of a self-report measure of self-esteem was associated with a higher level of self-esteem than the use of a self-report measure of self-esteem. This finding is consistent with the findings of other studies that have shown that self-report measures of self-esteem are more reliable than self-report measures of self-esteem.

## FQS leader fighting for life

**For Further Reading**

[illegible]

Journal of the International Association of Agricultural Economists, 1997, 19, 1-11.

Finally, with the 2002 election, the new leaders discussed ways to strengthen the bond between public institutions and the citizens. The new administration made a commitment to a people's power agenda inspired by the vision of democracy being a demand for social justice, equity, the rule of law, a sustained program of social change, and that citizens are the ultimate source of power.

The authors, working with 37 girls, 12 being diagnosed as chronic and moderately reading retarded, had them listen to stories and then read them. The results showed that the girls with reading retardation had a higher percentage of errors than the normal controls. The authors conclude that the girls with reading retardation had a higher percentage of errors than the normal controls.

Don't let the weather catch you off guard. **Great the MEAT!**

# SC reverses Ombudsman, orders graft raps vs Disini

**Manila, July 10**—The Supreme Court today reversed the Ombudsman's decision to drop graft charges against House Speaker Manuel A. Disini, ordering the filing of criminal cases against him.

The court, in a 12-1 decision, held that the Ombudsman's decision to drop the charges was "arbitrary and capricious" and "lacked due diligence."

The court also ordered the Ombudsman to file criminal cases against Disini and the other respondents in the graft case.

The court's decision was a landmark ruling in the history of the Ombudsman, as it was the first time the court had reversed the Ombudsman's decision.

## Blood demand bleeds Red Cross dry

MANILA, Sept. 26 (AP) — The Philippine Red Cross is running out of blood as demand for the life-saving fluid grows.

The Philippine Red Cross is running out of blood as demand for the life-saving fluid grows. The organization is currently facing a shortage of blood, particularly in the Manila area. This is due to a combination of factors, including a lack of donors and a high demand for blood in hospitals and clinics. The Red Cross is currently working to address the shortage by encouraging more people to donate blood.

## Portuguese posts ravage towns as drug industry

MANILA, Sept. 26 (AP) — Portuguese troops are ravaging towns in the Philippines as the drug industry continues to grow. The troops are reportedly targeting areas where drug production and distribution are taking place. This has led to the destruction of property and the displacement of many people. The drug industry is a major source of income for many people in the Philippines, but it is also a major source of social and economic problems. The Portuguese troops are reportedly working to dismantle the drug industry, but this has led to widespread anger and resistance.

## Shellfish ban hurts 8,000 fishermen

MANILA, Sept. 26 (AP) — A ban on shellfish harvesting in the Philippines has hurt 8,000 fishermen. The ban was implemented to protect the environment and public health, but it has had a significant impact on the livelihoods of many people. The fishermen are reportedly protesting the ban and demanding that it be lifted. The government is currently working to find a way to balance the need for environmental protection with the need to support the fishing industry.

## 2 dead, 117 down in diarrhea outbreak

# Mayor orders temporary closure of Montalban dump

By Oliver C. Santos Jr.  
and Tony V. Ocasio

MANILA — Mayor Antonio Montalban has ordered the temporary closure of the city's main dumpsite, the Montalban dump, after a fire broke out there last night.

The fire, which started at about 10 p.m., was caused by a gas leak from a cooking gas cylinder. The fire spread rapidly, consuming a large area of the dumpsite.

Mayor Montalban said that the dumpsite is a major source of pollution in the city. He said that the fire was a reminder that the dumpsite must be closed permanently.

The dumpsite is located in the Montalban area, which is one of the poorest areas in the city. It is a major source of income for many of the people who live there.

The fire caused significant damage to the dumpsite. It also caused a large amount of smoke to be released into the air. The smoke was visible from several miles away.

Mayor Montalban said that he will be ordering the dumpsite to be closed permanently. He said that he will be looking for a new location for the city's main dumpsite.

The fire was the latest in a series of incidents at the Montalban dump. In the past few years, there have been several fires and leaks of toxic substances.

Mayor Montalban said that he will be taking steps to ensure that the dumpsite is closed safely. He said that he will be providing compensation to the people who are affected by the closure.

## Workers serve notice to ARFA

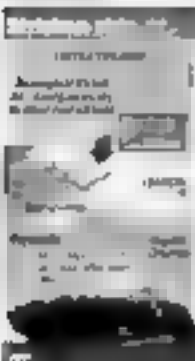

Workers have served notice to the ARFA (Association of Rural Farmworkers of the Philippines) regarding their concerns.

The workers are protesting against the ARFA's policies and actions. They are demanding that the ARFA be dissolved and replaced by a more representative organization.

The workers are also demanding that the government take action against the ARFA. They are calling for a law to be passed that would prohibit the ARFA from operating.

The workers are planning to continue their protest until their demands are met. They are also planning to hold a strike against the ARFA.

# Twin car bombs kill 100 in Iraq

Two twin car bombs exploded in Baghdad, Iraq, on Sunday, killing 100 people and wounding more than 200 others. The bombings occurred in the heart of the city, near the Iraqi Parliament building. The first explosion killed about 50 people, and the second explosion, which occurred a few minutes later, killed another 50 people. The bombings were carried out by two suicide bombers who drove their cars into a crowded market area. The Iraqi government has vowed to investigate the bombings and bring the perpetrators to justice. The bombings are the latest in a series of attacks against the Iraqi government and its allies.

Figure 1 is a line graph showing the relationship between the logarithm of the number of species ( $\log S$ ) and the logarithm of the number of individuals ( $\log N$ ). The x-axis is labeled 'log N' and ranges from 0 to 10. The y-axis is labeled 'log S' and ranges from 0 to 10. A solid line represents the theoretical relationship, and a dashed line represents the observed relationship. The observed relationship is generally lower than the theoretical one, especially at higher values of  $\log N$ .

The diagram illustrates a two-stage experimental design. In Stage 1, participants are divided into a 'Control' group and a 'Pre-Test' group. The 'Pre-Test' group undergoes a 'Pre-Test' and a 'Post-Test'. In Stage 2, the 'Control' group from Stage 1 is compared with a new 'Pre-Test' group. The 'Pre-Test' group from Stage 1 is also compared with a new 'Pre-Test' group. The diagram shows the flow of participants through these stages and the comparison of results.

The diagram illustrates a 2D lattice structure. It consists of a grid of points. At the top, there are labels  $\frac{1}{2}$  and  $\frac{1}{4}$ . Below these, there are labels  $\frac{1}{2}$  and  $\frac{1}{4}$  again. In the center, there is a label  $V_{ij}$  and below it,  $V_{ij}^{(1)}$  and  $V_{ij}^{(2)}$ . At the bottom, there are labels  $\frac{1}{2}$  and  $\frac{1}{4}$ .
